**1. DESCRIPTION OF BUSINESS AND GOING CONCERN**

High Tide Resources Corp. (“High Tide” or the “Company”) was incorporated by Certificate of Incorporation issued pursuant to the provisions of the *Ontario Business Corporations Act* on October 18, 2018. The registered head office of the Company is located at 110 Yonge Street, Suite #1601, Toronto, Ontario, M5C 1T4. High Tide is in the business of acquiring and exploring iron ore and electric vehicle (“EV”) battery metal projects. Avidian Gold Corp. (“Avidian”) owns approximately 28% of High Tide at March 31, 2025 (June 30, 2024 – 28%).

The condensed interim consolidated financial statements of the Company for the three and nine months ended March 31, 2025 and 2024 (the “Interim Financial Statements”) were reviewed, approved, and authorized for issue by the Board of Directors on May 27, 2025.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company’s assets may also be subject to increases in taxes and royalties, renegotiation of contracts, and currency exchange fluctuations and restrictions.

These Interim Financial Statements have been prepared on a going concern basis assuming that the Company will be able to realize its assets and discharge its liabilities in the normal course of business as they come due into the foreseeable future.

The Company’s property interests are at an early stage of exploration, and from time to time, Management needs to raise capital for High Tide’s exploration and evaluation activities in discrete tranches, as required. The Company has incurred a loss for the nine months ended March 31, 2025, of \$310,566 (2024 - \$568,061) and has an accumulated deficit of \$9,404,458 (June 30, 2024 - \$9,093,892).

To continue as a going concern, the Company must secure new funding. Although the Company has been successful in raising funds to date, there can be no assurance that adequate or sufficient funding will be available in the future, or available under terms acceptable to the Company. In the event that the Company is unable to secure further financing, it may not be able to complete the development of its mineral projects. There can be no assurance that these initiatives will be successful. These material uncertainties cast significant doubt as to the ability of the Company to meet its business plan and obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

These Interim Financial Statements do not include adjustments to the recoverability and classifications of recorded assets and liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

**2. BASIS OF PRESENTATION**

The Interim Financial Statements have been prepared in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, under IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The Interim Financial Statements have been prepared following the same accounting policies and methods of computation as the audited consolidated financial statements for the fiscal year ended June 30, 2024 ("Annual Financial Statements"), except as disclosed herein.

The Interim Financial Statements do not include all the disclosures included in the Annual Financial Statements and accordingly should be read in conjunction with the Annual Financial Statements and the notes thereto.

The Interim Financial Statements have been prepared on an accrual basis except for cash flow information and the information provided is based on historical costs except for those financial instruments carried at fair value and, except where otherwise stated, do not take into account changing money values, fair values of assets and liabilities, or recoverable amounts. The policies set out below have been consistently applied to all periods presented.

*Basis of consolidation*

The Interim Financial Statements include the accounts of the Company and its wholly-owned subsidiary, Ferrum Exploration Corp., a company incorporated in Ontario. Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company and are deconsolidated from the date control ceases.

The Interim Financial Statements include all assets, liabilities, revenues, expenses, and cash flows of the Company and its subsidiary after eliminating inter-entity balances and transactions.

*Presentation and functional currency*

The Interim Financial Statements are presented in Canadian dollars, which is the Company's functional currency. The functional currency of Ferrum Exploration Corp. is also the Canadian dollar.

*Material accounting policy information*

The accounting policies adopted herein are consistent with those of Note 2 of the Annual Financial Statements.

**(Unaudited; Expressed in Canadian Dollars)**

---

**2. BASIS OF PRESENTATION (continued)**

*Recent accounting pronouncements*

During the nine months ended March 31, 2025, the Company adopted a number of amendments and improvements to existing standards. These new standards and changes did not have any material impact on the Interim Financial Statements.

**3. CAPITAL MANAGEMENT**

When managing capital, the Company's objective is to ensure the entity continues as a going concern as well as to achieve optimal returns to shareholders and benefits for other stakeholders. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of mineral exploration assets.

The Board of Directors does not establish quantitative return on capital criteria for Management but rather relies on the expertise of Management to sustain the future development of the business. The Company considers its capital to be equity, which comprises share capital, warrants, contributed surplus and deficit, which at March 31, 2025, totaled (\$607,421) (June 30, 2024 – (\$359,925)).

The Company invests all capital not required for its immediate needs in short-term, liquid, and highly rated financial instruments, such as cash and other short-term guaranteed deposits, all held with select major Canadian financial institutions.

The Company is currently attempting to identify an economic mineral resource and as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned acquisitions and exploration, as well as pay for administrative costs, the Company will spend its existing working capital and expects to raise additional amounts as needed.

Management has chosen to mitigate the risk and uncertainty associated with raising additional capital in current economic conditions by:

- a. monitoring liquidity in order to address any potential disruptions or industry downturns;
- b. minimizing discretionary disbursements; and
- c. exploring alternative sources of liquidity.

In light of the above, the Company will continue to assess new properties if the Company believes there is sufficient potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is appropriate. There were no significant changes in the Company's approach to capital management during the nine months ended March 31, 2025.

**4. FINANCIAL RISK FACTORS**

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, and market risk (specifically commodity price risk).

Risk management is carried out by the Company's Management with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

*Credit risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is attributable to cash. Cash is held with a reputable financial institution, from which Management believes the risk of loss to be remote.

Included in amounts receivable is sales tax receivable from government authorities in Canada. Management believes that the credit risk concentration with respect to financial instruments included in amounts receivable is minimal.

*Liquidity risk*

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they become due. The Company's liquidity and operating results may be adversely affected if the Company's access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or related to matters specific to the Company.

The Company generates cash flow primarily from its financing activities. As at March 31, 2025, the Company had cash of \$18,479 (June 30, 2024 - \$84,885) to settle current liabilities of \$629,447 (June 30, 2024 - \$447,839). The Company regularly evaluates its cash position to ensure preservation and security of capital as well as maintenance and liquidity.

All of the Company's current financial liabilities as at March 31, 2025, have contractual maturities of less than 30 days and are subject to normal trade terms.

*Market risk*

Commodity price risk

The Company is exposed to commodity price risk with respect to iron ore and precious metals prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to price movements and volatilities.

**Sensitivity Analysis**

As of March 31, 2025 and June 30, 2024, both the carrying and fair value amounts of the Company's financial instrument are approximately equivalent due to their short-term nature. Management does not believe the Company is exposed to any significant interest rate or currency exchange risks with respect to its financial instruments.

**For the three and nine months ended March 31, 2025 and 2024**  
**(Unaudited; Expressed in Canadian Dollars)**

---

**4. FINANCIAL RISK FACTORS (continued)**

**Fair value hierarchy and liquidity risk disclosure**

The three levels of the fair value hierarchy are as follows:

Level 1	Unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2	Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
Level 3	Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

At March 31, 2025 and June 30, 2024, the Company did not hold any financial assets in the fair value hierarchy.

**5. SHARE CAPITAL**

**(a) Authorized**

Unlimited number of common shares, with no par value. The number of issued and outstanding common shares at March 31, 2025 and June 30, 2024 was 78,727,194.

**(b) Issued**

On November 6, 2023, the Company issued 1,246,004 common shares to satisfy its final obligation under the Labrador West Option Agreement (See Note 10). The common shares have an estimated value of \$62,300 based on the quoted market price of the Company's shares at the date of issuance.

**(c) Share-based compensation**

On January 2, 2024, the Company granted 3,500,000 stock options to directors, officers, consultants and an employee of the Company to purchase 3,500,000 common shares of the Company at an exercise price of \$0.10 per share, expiring on January 2, 2029. A total of 3,000,000 stock options vest 1/3 upon granting, 1/3 on the first anniversary of the date of grant and the remaining 1/3 on the second anniversary of the date of grant. The remaining 500,000 stock options vested three months after the grant date.

**10. EXPLORATION AND EVALUATION EXPENDITURES**

**Labrador West**

On August 20, 2019, the Company entered into an option agreement (together with the Amendment Agreement, the Second Amendment Agreement and the Third Amendment Agreement, each as defined herein below, the "Labrador West Option Agreement") with Altius Resources Inc. ("Altius") pursuant to which the Company was granted the Labrador West Option to acquire up to a 100% interest in the Labrador West iron ore project, located in the Labrador Trough.

In accordance with the Labrador West Option Agreement, the Company issued shares to Altius as follows:

- 13,427,507 common shares were issued on November 5, 2021.
- 1,246,004 common shares were issued on November 6, 2023. Refer to Note 5.

The Company was also required to incur \$2,000,000 in exploration expenditures which was completed.

Upon acquiring a 100% interest in the project, the Company granted to Altius a 2.75% gross sales royalty ("GSR") on all iron ore produced, removed and recovered from the project.

**Lac Pegma**

On February 2, 2021, the Company entered into a purchase agreement with Globex Mining Enterprises Inc. ("Globex") to purchase 100% of the Lac Pegma copper-nickel-cobalt sulphide deposit located approximately 50 kilometres south of Fermont, Quebec.

**11. COMMITMENTS AND CONTINGENCIES**

**Environmental contingencies**

The Company's exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its activities are materially in compliance with all applicable laws and regulations.

**Flow-through commitment**

Flow-through agreements require the Company to renounce certain tax deductions for Canadian exploration expenditures (“CEE”) incurred on the Company’s mineral properties to flow-through participants. Certain interpretations are required to assess the eligibility of flow-through expenditures that if changed, could result in the denial of renunciation. The Company has indemnified the subscribers for certain tax-related amounts that become payable by the subscribers should the Company not meet its expenditure commitments.
